

Announcing MERS Premier Advantage:

Announcing MERS Premier Advantage:

An exciting alternative to Medicare exclusively for MERS members

FOR IMMEDIATE RELEASE:

MERS is proud to announce an exciting new health care option for its Medicare-eligible members and municipal employers. MERS has partnered with Humana to offer MERS Premier Advantage, a new source for retiree health care coverage — with cheaper out-of-pocket costs than Medicare!

MERS Premier Advantage is an affordable Medicare Advantage program, designed exclusively for Medicare-eligible MERS members and their spouses.

Advantages for Medicare-eligible members

Together with our partner, Humana, we work with Medicare to provide all the Medicare Part A and Part B benefits — and much more. MERS Premier Advantage covers everything Medicare Parts A and B offer, plus many other medical services, all at a lower out-of-pocket cost than Medicare. MERS Premier Advantage also offers optional dental and vision plans, as well.

This exciting new health care plan is only available to eligible MERS members and their spouses, with lower premiums than individuals can buy on their own.

Advantages for municipalities

There are many benefits for MERS employers, too. By choosing MERS Premier Advantage, your Medicare-eligible employees and retirees can receive superior health care coverage, while saving your municipality the cost of providing full coverage. And with a variety of coverage plans available to our members — from Medicare Part D to dental and vision — you can offer your employees and retirees excellent coverage more affordably than ever.

About MERS

The Municipal Employees' Retirement System (MERS) is a statewide retirement plan and tax-qualified trust that municipalities may adopt for their employees. MERS offers employee benefit programs: defined benefit, defined contribution and hybrid plans, and group insurance products. MERS serves cities, counties, hospitals, libraries, medical care facilities, road commissions, townships, villages, and similar units of local government.
